Session 1 Coaching Summary — Template

Strengths & Vision · IM Residency Coaching Program

The structured, learner-verified record of Session 1. Generated from the meeting transcript, reviewed by the coach, then shared with the learner for confirmation before it is finalized into their coaching file.

Three parts: **Part A** — the template itself (what the finished document looks like) · **Part B** — the generation prompt (paste into Copilot/agent with the transcript to produce a draft) · **Part C** — the ground rules every generated draft must follow.

Sessions 2–4: keep Parts B and C identical; swap Part A's section headings, key questions, and checklist for that session's framework.

PART A — TEMPLATE

Coaching Session 1 Summary — Strengths & Vision

Learner	*[Name, PGY-1]*
Coach	*[Name]*
Date / Duration	*[Date] / [e.g., 29 min]*
Session	1 of 4 — Strengths & Vision
Source	*[Transcript filename in SharePoint Coaching Transcripts folder]*
Status	*Draft — pending learner review / Final — learner approved [date]*

1. Session Overview

[2–3 sentences: overall tone and focus of the conversation. No evaluation or judgment — descriptive only.]

2. Coaching Role & Confidentiality

[Confirm these were reviewed. Note anything specific that was agreed, e.g., what is and isn't shared with the program.]

3. Positive Introduction

- **What the learner shared:** *[The story of something that went well recently, in the learner's own words where possible.]* `[mm:ss]`

- **What made it meaningful:** *[Learner's reflection.]* `[mm:ss]`

4. VIA Character Strengths

- **Strengths discussed:** *[List the strengths that came up.]* `[mm:ss]`
- **Which resonate most, and why:** *[Learner's answer.]* `[mm:ss]`
- **Which surprised them:** *[Learner's answer, or "Not discussed."]* `[mm:ss]`
- **How the learner sees using these strengths this year:** *[If discussed.]* `[mm:ss]`

5. Best Possible Self (imagining June, end of the best PGY-1 year possible)

- **What happened:** *[Learner's vision.]* `[mm:ss]`
- **What they are proud of:** *[ ]* `[mm:ss]`
- **What excites them most:** *[ ]* `[mm:ss]`
- **How they'll know they got there:** *[If discussed — e.g., confidence, feedback, independence.]* `[mm:ss]`

6. SMART Goal(s)

Goal	Why it matters to the learner	How they'll know it's accomplished	Revisit
[One thing to work on before next meeting]	*[Learner's stated motivation]*	*[Learner's stated success measure]*	Session 2

Repeat rows if more than one goal was set. If the coach added a measure or refinement (e.g., a teaching-role expectation), attribute it: "Coach suggested adding…"

7. Agreed Next Steps

Action	Owner	By when
[e.g., Complete Best Possible Self written exercise]	Learner	*[date or "before Session 2"]*
[e.g., Send VIA results link]	Coach	

8. Session 2

Scheduled: *[Date/time, or "Not yet scheduled — to be arranged by (whom)"]*

9. Session 1 Checklist

Item	Status	Where covered
Coaching role reviewed	☐ Covered ☐ Not covered	`[mm:ss]`
Confidentiality discussed	☐ Covered ☐ Not covered	`[mm:ss]`
Positive Introduction completed	☐ Covered ☐ Not covered	`[mm:ss]`
VIA strengths reviewed	☐ Covered ☐ Not covered	`[mm:ss]`
Best Possible Self completed	☐ Covered ☐ Not covered	`[mm:ss]`
SMART goal(s) established	☐ Covered ☐ Not covered	`[mm:ss]`
Session 2 scheduled	☐ Covered ☐ Not covered	`[mm:ss]`

Any item marked "Not covered" should be carried into Session 2's agenda or addressed by follow-up.

10. Notes (outside the framework)

[Anything substantive from the conversation that does not fit the sections above — background shared, career interests, logistical questions, concerns raised. Each item cites `[mm:ss]`.]

The learner may request that any item here (or anywhere in this summary) be removed before the document is finalized.

11. Learner Review & Approval

> *I have reviewed this summary and confirm it is a fair reflection of our conversation, including the goals I set. Any revisions I requested have been made.*
>
> **Learner:** _____ **Date:** _____
>
> **Revisions requested:** *[None / list what was changed or removed at learner request — keep the list, not the removed content]*
>
> **Coach acknowledgment:** _____ **Date:** _____

Once approved, this document is added to the learner's coaching file. Approved summaries from Sessions 1–4 form the running record used to develop the learner's individualized learning plan.

PART B — GENERATION PROMPT

Paste the following into Copilot (or the agent), attach or paste the transcript, and it will return a draft in the Part A format:

COPY EVERYTHING INSIDE THIS BOX

You are drafting a coaching session summary for an Internal Medicine residency program. Attached is the transcript of a 30-minute Session 1 ("Strengths & Vision") coaching conversation between a faculty coach and a resident (the learner). Produce a draft summary using EXACTLY the template structure I provide below, following these rules:

1. Use ONLY what was actually said in the transcript. Do not infer, embellish, or add anything that was not said. If you are unsure whether something was said, leave it out.
2. For each template field, capture the learner's answers in their own words where possible (light cleanup of filler words is fine; do not change meaning).
3. After each captured point, cite the transcript timestamp(s) it came from in [mm:ss] format.
4. For the Session 1 Checklist, mark each item "Covered" only if the transcript shows it was actually addressed, and cite where. Otherwise mark it "Not covered" — never assume.
5. If a template question was not asked or not answered, write "Not discussed" for that field. Do not fill it in from context.
6. Anything substantive in the conversation that does not fit the template sections goes in the Notes section, each item with its timestamp.
7. Attribute clearly: things the learner said vs. things the coach said or suggested. Never present the coach's words as the learner's goals.
8. Keep the tone neutral and descriptive. This is a record of the conversation, not an evaluation of the learner.
9. Leave the Learner Review & Approval section blank.

[Paste Part A template here]
[Attach/paste transcript]

PART C — GROUND RULES

The properties this workflow is designed around; they apply whether the draft is produced by Copilot today or an automated agent later.

1. **Transcript is the source of truth.** Summaries are generated from the verbatim transcript, not from anyone's recollection or the Facilitator recap.
2. **Nothing without evidence.** Every claim in the summary carries a timestamp pointing to where in the transcript it was said. A claim that can't be pointed to doesn't belong in the summary.
3. **Missing means missing.** Checklist items and template questions that weren't covered are flagged as not covered — never silently filled in. This is what lets the program see, across coaches with different styles, where the framework isn't landing.
4. **Nothing is lost, nothing is forced.** Content that doesn't fit the framework goes to Notes rather than being dropped or shoehorned into a section.
5. **The learner has the last word.** No summary enters the coaching file until the learner confirms it is a fair reflection and any requested removals are made. The record *that* a revision was requested is kept; the removed content is not.
6. **Humans review, machines type.** The draft saves the typing; the coach checks it and the learner approves it. No document is auto-filed.
